Naval innovation and competitiveness

Number 6 - August 2010

## Initiatives for the shipbuilding ancillary industry

### Seminar in London coming beginning of September

*Researchers and companies hand by hand*

Next September 1<sup>st</sup> and 2<sup>nd</sup>, Auxnavalia is offering a new seminar aimed to foster the collaboration of research organisations, shipyards, ancillary companies, operators, marine services and other stakeholders will be held in London.

Over the two days, a brokerage event and conference will help us to look

**brokerage possibilities to develop R&D projects**

at future challenges, the state of the industry and the R&D opportunities and investigate available granting schemes, including the European Union R&D programme FP7 Call IV (Transport), and how to access them.

This European Maritime Innovation & Research Conference will also offer presentations on leading European innovation and technology driven products and projects from leading Industry bodies.

Further information is available at [www.auxnavalia.org](http://www.auxnavalia.org).

### Aux-Navalia training programme brings new actions

*New courses will be available in new different settings*

July 30<sup>th</sup> marked the end of the first training course on "R+D Specialist Technician within the shipbuilding sector", attended by 12 trainees in Ferrol (Galicia-Spain).

The next course will be available in Vigo (also in Galicia-Spain) starting next September 16<sup>th</sup>, and finishing on October 1<sup>st</sup>. The registration process has been started.

Another course will take place in Lisbon in October. The definite dates and registration period are about to be decided and opened.

A fourth course will be available in a setting to be decided in the UK next fall.

**training offer with courses in Spain, Portugal and UK**

Those interested in participating should contact Aclunaga (Spain, [www.aclunaga.es](http://www.aclunaga.es)), AIN (Portugal, [www.ain.pt](http://www.ain.pt)) and SSA or University of Strathclyde (UK, [www.ssa.org.uk](http://www.ssa.org.uk) or [www.strath.ac.uk](http://www.strath.ac.uk)).

Aux-Navalia is a project involving the collaboration of three European countries. Contact us in the web <http://www.auxnavalia.org> on the telephone at +44(0) 191 567 8965
